

# XENON FLASH

## DISORIENTATION STROBE LIGHT

☑ Significantly amplifies the effect of Smoke Screen ☑ Robust and stylish design ☑ Facilitates smaller smoke generators

## THE PERFECT PARTNER TO SMOKE

The XFP line of products further complement the Security Smoke range. By producing an intense light effect, the screening properties of any Security Smoke is magnified immensely. Imagine driving into thick fog and then turning your vehicle's full beam on and you will get a small idea of the effect.

The unit itself, is small, robust and designed with style in mind. Using this line of products means that lower volumes of smoke (and hence smaller, cheaper fog generators) can be employed to incredible effect.
